

deposited by several large numbers of small stones in
occasional to occasional places.

It has been observed that the most common error in the use of the word "and" is to use it when it is not necessary. This is especially true in the case of the word "and" when it is used to connect two clauses. The word "and" should only be used when it is necessary to connect two clauses. If the two clauses can stand alone, then the word "and" should not be used. This is especially true in the case of the word "and" when it is used to connect two clauses. The word "and" should only be used when it is necessary to connect two clauses. If the two clauses can stand alone, then the word "and" should not be used.
